

Hassan Ramzan

Computer Science Teacher & Aspiring Web Developer

0370-6471437 hassanramzan319040@gmail.com Kot Addu, Pakistan

About Me

I am an IT student from Kot Addu with a deep-rooted interest in computer science and modern web technologies. Currently, I channel my passion into teaching—guiding students through programming fundamentals and helping them develop a strong foundation in digital skills. As an aspiring web developer, I am constantly learning, building, and exploring new ways to solve problems through code.

Experience

Computer Science Teacher

Current

School Level

- Teaching foundational computer science concepts to school students.
- Breaking down complex technical topics into easily understandable, bite-sized lessons.
- Fostering student engagement in technology and digital literacy.
- Introducing programming fundamentals at a basic level to spark early interest in coding.

Education

BS Information Technology

2023 – 2027

Bahauddin Zakariya University (BZU) Multan

Via Concordia College Kot Addu

Currently studying — 5th Semester near completion
